

FMS (AMC) REMOTE INSTALLATION GUIDE (AUTOMATED)

CENTRAL DEPOSITORY COMPANY

LAST UPDATED ON 17 MARCH 2020

CDC CUSTOMER SUPPORT SERVICES: 0800-23275

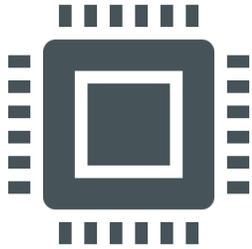

Prerequisites

Overview

Step A: Automated Installation

Step B: Start using FMS

CONTENTS

The FMS terminal meets the hardware and software recommendations as advised by CDC in December 2019.

At least 2 Mbps dedicated Internet connection, should be available.

Latest version of Adobe Acrobat Reader is installed on the FMS terminal.

PREREQUISITES

CDC always endeavors to provide maximum support to its valued clients. This Remote Installation Guide has been developed to achieve this goal. There are three steps to start using FMS from a new terminal.

Step A: Automated Installatoin

Step B: Start using FMS

OVERVIEW

Please click below Dropbox link to download FMS Application zip file containing automated installation setup along with other supporting files.

This will be downloaded as FMS12C – AMC (Auto).zip (Approximate 222 MB)

https://www.dropbox.com/sh/liopfsopi1e88k5/AAAtyteb13tgBcFmP_aohtTJa?dl=0

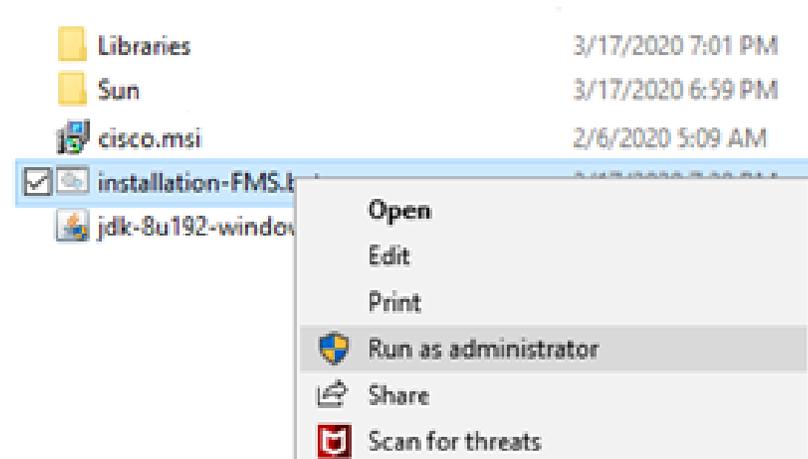

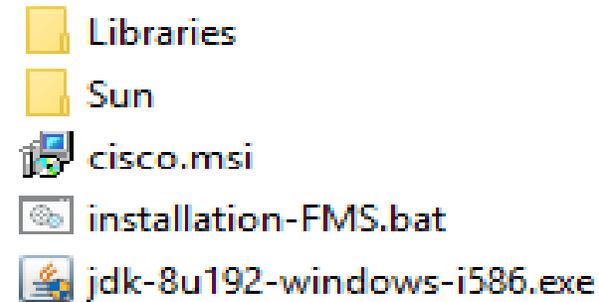

Unzip FMS12C – AMC (Auto).zip file in any empty folder

STEP A:

AUTOMATED INSTALLATION

STEP A: AUTOMATED INSTALLATION

- The contents after unzip are shown in image.
- User is only required to right click on file “Installation-FMS” and select Run As Administrator
- This will start silent installation of FMS

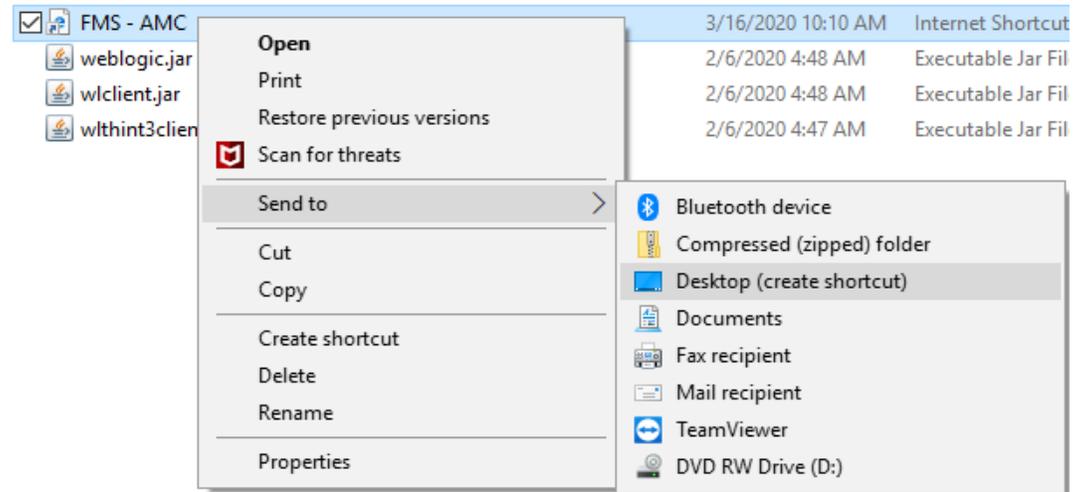

STEP A: AUTOMATED INSTALLATION

- After completion of silent installation of FMS application, this screen will appear
- User may view status and also press any key to close this screen.

```
Libraries\FMS - AMC.url  
Libraries\weblogic.jar  
Libraries\wlclient.jar  
Libraries\wlthint3client.jar  
4 file(s) copied.  
Sun\Java\Deployment\deployment.config  
Sun\Java\Deployment\deployment.properties  
Sun\Java\Deployment\exception.sites  
Sun\Java\Deployment\trusted.certs

"///// Installation Done /////"  
Press any key to continue . . .
```

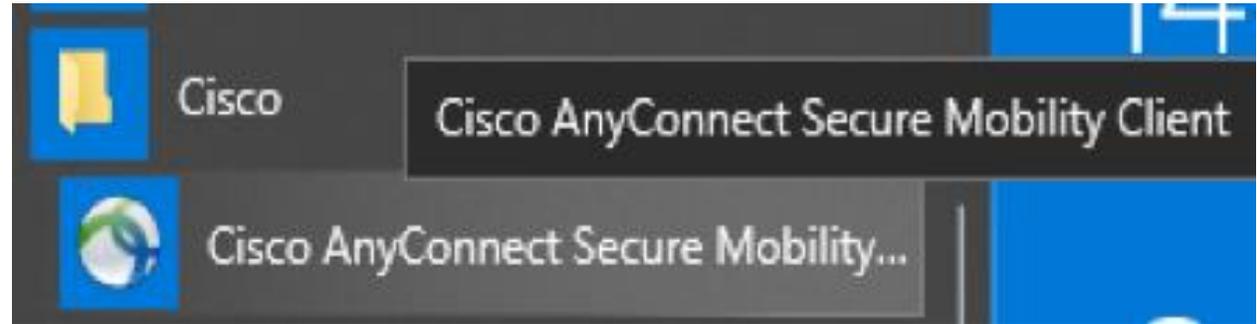

STEP A: AUTOMATED INSTALLATION

- As a result of Automated installation, two folders (fmsFileErrors & FMS12C) will be created on root of C: drive
- Now open the folder FMS12C and copy FMS – AMC file on your desktop.

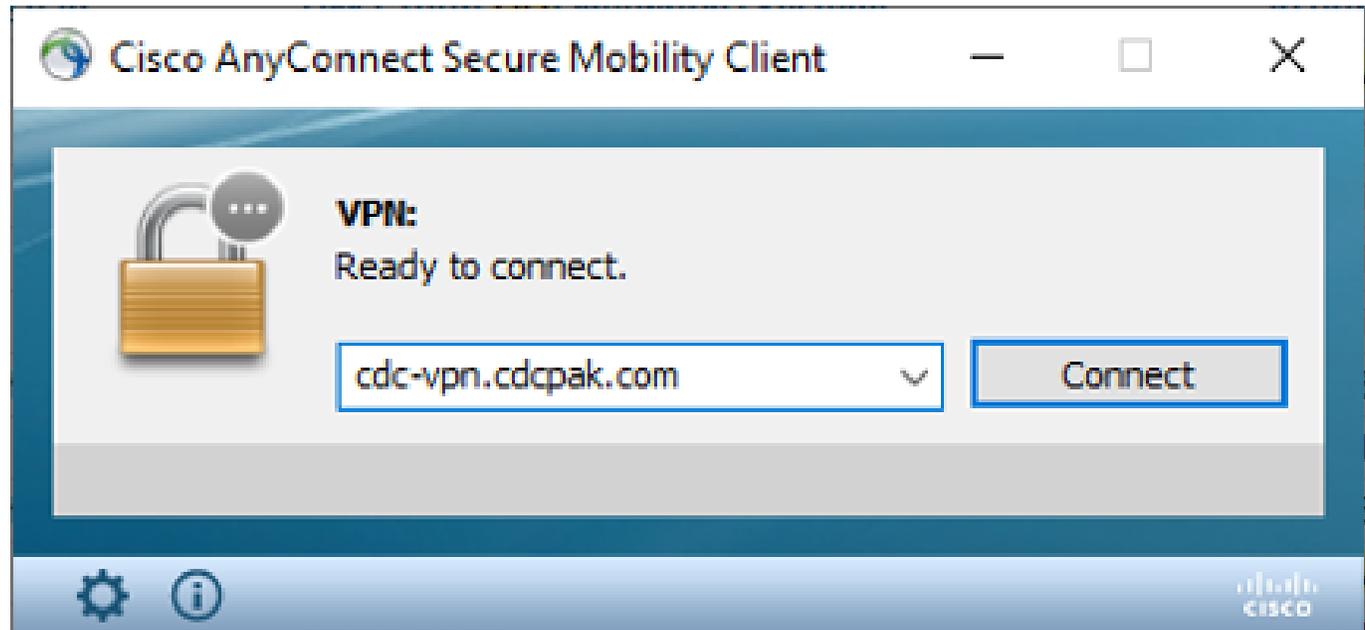

STEP A: AUTOMATED INSTALLATION

- Now copy the shortcut of Cisco AnyConnect VPN client from Programs menu to your Desktop for more convenience.
- Now you have two shortcuts on your Desktop.

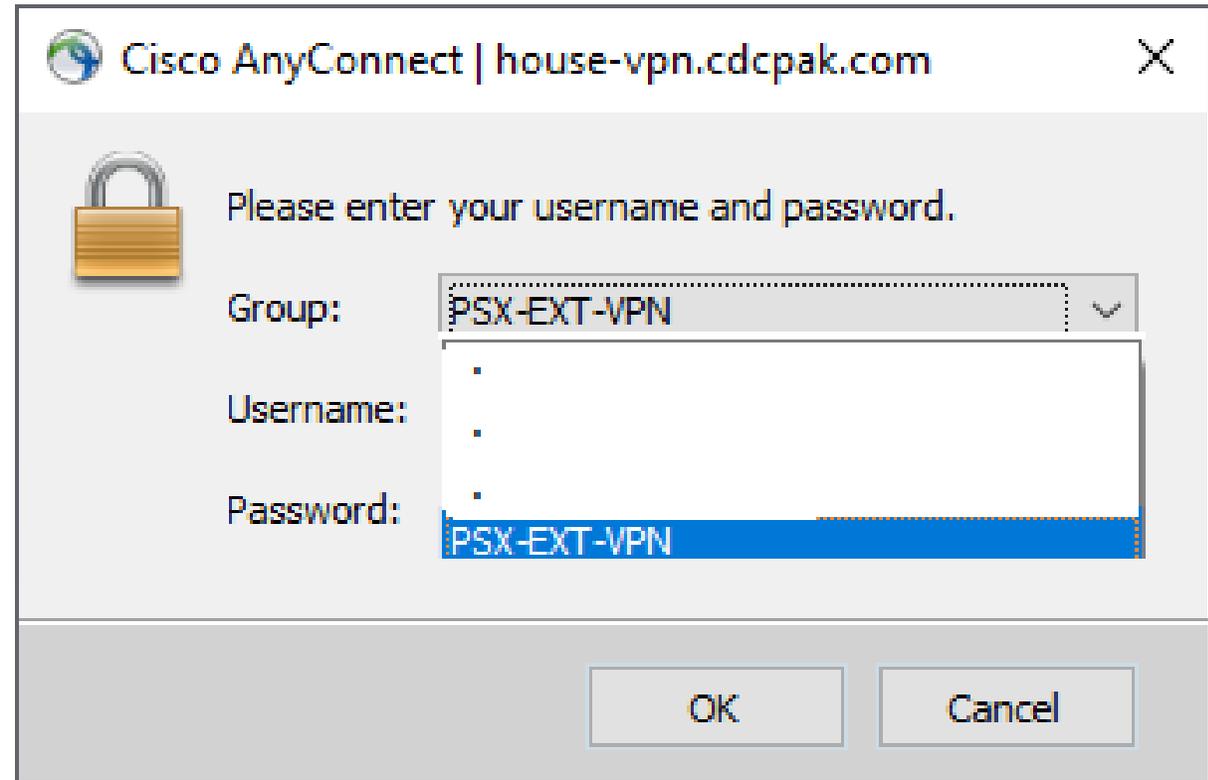

STEP B: START USING FMS

- To login into FMS first launch Cisco AnyConnect client and enter the below address.
- cdc-vpn.cdcpak.com

STEP B: START USING FMS

- Now select the following Group i.e. **PSX-EXT-VPN** from the drop-down list.

The screenshot shows a Cisco AnyConnect login window titled "Cisco AnyConnect | house-vpn.cdcpak.com". The window contains a padlock icon and the instruction "Please enter your username and password." Below this, there are three input fields: "Group:", "Username:", and "Password:". The "Group:" field is a drop-down menu with "PSX-EXT-VPN" selected. The "Username:" field contains three dots. The "Password:" field contains three dots and a blue highlight at the bottom. At the bottom of the window are "OK" and "Cancel" buttons.

Cisco AnyConnect | house-vpn.cdcpak.com

Please enter your username and password.

Group: PSX-EXT-VPN

Username: .

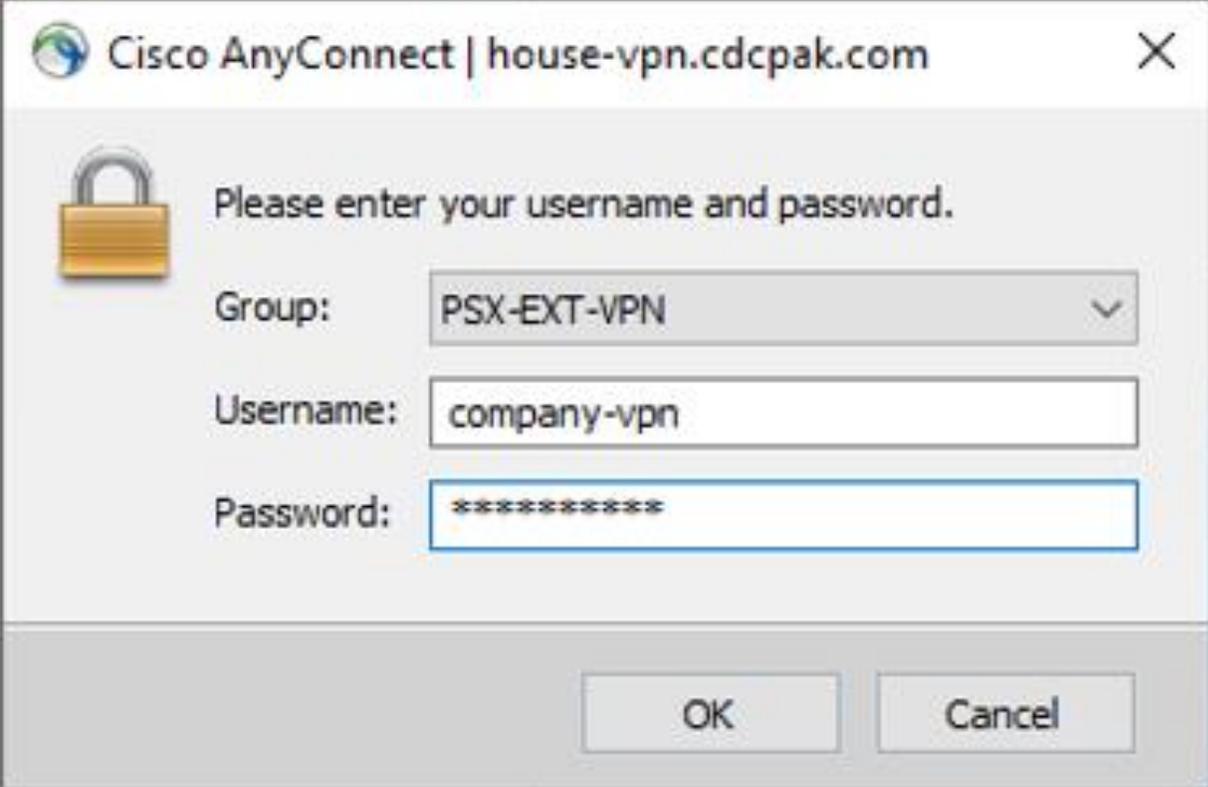

Password: .

PSX-EXT-VPN

OK Cancel

STEP B: START USING FMS

- Enter your existing VPN ID in Username field.
- Enter your existing password i.e. combination of 4-digit PIN + 6-digit number generated by the CDC provided 2FA token.
- And Click OK.

Cisco AnyConnect | house-vpn.cdcpak.com

Please enter your username and password.

Group: PSX-EXT-VPN

Username: company-vpn

Password: *****

OK Cancel

The image shows a Cisco AnyConnect login dialog box. The title bar reads 'Cisco AnyConnect | house-vpn.cdcpak.com'. On the left, there is a yellow padlock icon. The main text says 'Please enter your username and password.'. Below this, there are three input fields: 'Group' is a dropdown menu showing 'PSX-EXT-VPN'; 'Username' is a text box containing 'company-vpn'; and 'Password' is a text box containing ten asterisks. At the bottom right, there are two buttons: 'OK' and 'Cancel'.

STEP B: START USING FMS

- If your provided credentials are valid then VPN will be established, and this pop-up window will be minimized automatically.
- You may launch FMS application by accessing its shortcut on desktop.
- This will pop-up FMS Logon Screen where you shall be required to enter your FMS User ID and Password.
